When Walt Disney opened Disneyland on July 17, 1955, he said he hoped it would be “a source of joy and inspiration to all the world.” Since then, Disneyland Resort has welcomed guests from all across the world, expanding to become an approximately 500-acre, multifaceted, world-class family resort destination, complete with two renowned Disney theme parks, three hotels and the exciting shopping, dining and entertainment area known as Downtown Disney District.

Disneyland introduced the world to an entirely new concept in family entertainment. Today, it continues to use creativity, technology and innovation to bring storytelling to new heights, while fulfilling Walt Disney’s vision that “Disneyland will never be completed as long as there is imagination left in the world.”

## COMMUNITY INVOLVEMENT

At Disneyland Resort, we are committed to bringing happiness, inspiration and opportunities to youth and families in our community. The resort and its cast members contribute to our local community in a myriad of ways including millions of dollars in cash and in-kind donations to local nonprofit organizations, leaders serving on boards and thousands of Disney VoluntEARS hours from our cast members. To help develop and prepare the workforce in Orange County, Disneyland Resort continues to provide career readiness opportunities to Anaheim students and residents through its community workforce development initiative. Since 2017, this initiative has given more than \$7.5 million in financial support and thousands of volunteer hours by Disney VoluntEARS toward upskilling the future workforce.

## EMPLOYMENT EXPERIENCE

As the largest employer in Orange County, Disneyland Resort is home to more than 36,000 cast members – more than ever in our history – and offers competitive wages, comprehensive benefits and development opportunities for advancement. Cast members also have access to one-of-a-kind events, such as after-hours in-park activities including Service Celebrations, yoga, scavenger hunts and more.

Cast members also have access to resources that make working at Disneyland Resort much more than a job, such as a dedicated on-site cast care center, Employee Assistance Program (EAP), on-site Partners Federal Credit Union and many more. Disney Aspire, an education program that provides help with college tuition for eligible hourly cast members, creates opportunities to gain career mobility and advance professionally.

## ENVIRONMENTAL SUSTAINABILITY

Disneyland Resort is committed to operating in an environmentally responsible way and actively working to achieve ambitious 2030 environmental goals of The Walt Disney Company. A team of dedicated environmental sustainability professionals at Disneyland Resort design the strategy and develop solutions while partnering with key teams resort-wide to achieve net zero emissions, become a zero-waste facility and use water wisely. Converting lighting to LED, electrifying vehicles and installing solar panels are just a few ways that Disneyland Resort is reaching a goal to acquire all energy from renewable sources. With 60% of the resort’s electricity use matched with zero carbon electricity from utilities, the resort is already more than halfway there.

Disneyland Resort has ensured that guests and cast members are part of sustainability efforts, too. With over 450 EV charging ports (making Disneyland Resort one of the largest destination EV chargers in Orange County), food waste recovery programs and climate-friendly food offerings, anyone can make a difference. These programs have earned Disneyland Resort numerous awards and recognitions, including SustainSoCal’s 2024 Sustainable Corporation of the Year and four SEAL Business Sustainability Awards.
